Professional Title/ Qualification: Diplomatura Universitaria The title and the professional activity is protected by the state. The rules of professional conduct are determined directly by the state through national legislation. The physiotherapist must be state registrated and obtain a licence to practice. Spain has established a code of ethics for physiotherapists. The national authority responsible for the physiotherapy profession in Spain is "Ministerio de Educacion, Cultura y Deporte". There is a shortage of employment opportunities for physiotherapists in the country.

Practice of physiotherapy:

The physiotherapy services in Spain are determined by the profession. The physiotherapist determines the clinical intervention of physiotherapy him/herself. Spain offers both public and private physiotherapy services. The insurance cover for physiotherapy is combined between the national health care system and private insurances.

Twinning:

The Spanish association has established a twinning program with Romania (Europe) Yearly costs are not estimated and no funding has been obtained for the twinning activities. The Spanish association herewith announces its wish to establish twinning programs with other member countries.
